GREAVES'S PORTLAND, ROMAN, and LIAS CEMENTS.—The above possess every constituent property, to an eminent degree, and are unequalled for all hydraulic purposes.

GREAVES'S GROUND BLUE LIAS LIME.
CHARLES RICHARDSON, Agent.
Offices, Warwick. 6, South-wharf, Paddington.

FRENCH PLASTER mixed with sand forms a hard cement for internal walls, which dries rapidly, and may be used in all cases in place of lime and hair, at a trifling expense of cost. It is stronger for gauged work than English plaster, and is cheaper in its first cost.—Inventors and Manufacturers, J. B. WHITE and SONS, Millbank-street, Westminster; 11, South Wharf-road, Paddington; and Earl-street, Blackfriars.

ATKINSON'S CEMENT, made in London from the Stones supplied from the Mulgrave quarries is well known for its quick setting properties and fine natural colour which have distinguished it for many years as the best Cement for Ceiling and all ornamental purposes.—Manufacturers, J. B. WHITE and SONS, Millbank-street, Westminster; 11, South Wharf-road, Paddington; and Earl-street, Blackfriars.

KEENE'S and PARIAN CEMENTS, for internal stucco, are employed very advantageously in place of wood for skirtings, architraves, and panel mouldings and for in-door flooring, instead of stone. The peculiar properties of PARIAN Cement allow of its being painted or papered upon within a few hours of its application, and thus render it an important substitute for common plastering in those cases where expedition and beauty of finish are essential.—J. B. WHITE and SONS, Millbank-street, Westminster; 11, South-wharf-road, Paddington; and Earl-street, Blackfriars, Patentees of KEENE's Cement, Licensees of PARIAN Cement.

J. B. WHITE and SONS advise purchasers of PORTLAND CEMENT to ascertain if an article now selling under that name at a reduced price is the real Portland Cement or a spurious imitation of it in the shape of a Lias Lime.

PORTLAND CEMENT, as manufactured by J. B. WHITE and SONS, possesses all the properties of the best Roman Cement but has the advantage over that material of wholly resisting frost. When used as a stucco, it does not repaint or turn green in damp situations, and requires no colouring. Employed as an hydraulic mortar for brickwork, it carries four or five measures of sand to one of cement, and is proved by trial to become harder and stronger in these proportions than Roman Cement with half our measure of sand. This superior cementing power, combined with its eminently hydraulic properties, point it out as the fittest material for building sea and embankment walls, the lining of reservoirs, cisterns, and baths, and for all these purposes where strength and a perfect resistance to water are required.

Manufacturers—J. B. WHITE and SONS, Millbank-street, Westminster; 11, South Wharf-road, Paddington; and Earl-street, Blackfriars; and 26, Seel-street, Liverpool.

PORTLAND CEMENT, in Casks of Four imperial Bushels. QUANTITY, NOT WEIGHT, BEING THE STANDARD.—CHAS. FRANCIS and SONS, Cement Works, Nine Elms, London.

6, South Wharf, Paddington.

PORTLAND CEMENT.—CHARLES RICHARDSON has the greatest confidence in introducing to the trade this above superior CEMENT; the uniformity of colour and quality in description never before attained in Portland Cements. It possesses extraordinary cementitious qualities, resists the action of frost and heat, and is more durable than any other Cement; does not vegetate, turn green, or crack combined with which he recommend hydraulic properties stamp. It is since as the first Cement of the day for work where all the above qualities are requisite. It is manufactured on the only principle Portland Cement can be, and contrary to the statements put forth by those who have hitherto had the monopoly. Manufactured by R. GREAVES, Esq., at his Works, near the River Avon, and sent to all parts of the kingdom per boat or rail, at a reduced price to the trade.

PORTLAND CEMENT, solely MANUFACTURED by WILLIAM ASPDIN, Son of the Patentee.—Messrs. ROBINS, ASPDIN, and Co. respect reference to Nos. 993, 1001, 1007, and also Nos. 1011 and 1017, pages 161 and 151, of "The Builder," for accounts of EXPERIMENTS on the strength of Portland Cements, wherein the great superiority of their Cement is manifest. This Cement has been proved for upwards of twenty years in the "Thames Tunnel" to resist the action of water; it is stronger in its consolidation, harder, and more durable than any other description of Cement; it does not vegetate, crumble or turn green; nor is it affected by any atmospheric influence whatever the climate, resists the action of frost and heat. It is manufactured to set in from five to sixty minutes. For all purposes that Cement is applicable the Proprietors challenge competition.—Orders received by Messrs. ROBINS, ASPDIN, and Company, at their Manufactory, Northfleet, Kent, and their Wharf, Great Scotland-yard, Whitehall; the at their Depôt, 41, Hanover street, Liverpool.

ROMAN CEMENT and PLASTER of PARIS WORKS.
THOS. FREES and CO.,
Manufacturers of ROMAN CEMENT, PLASTER of PARIS, and GROUND BLUE LIAS LIME.
TURCANT WHARF, Regent's Canal, Kingsland-road, LONDON.
DEPOTS—QUEEN'S WHARF, Great Cambridge-street, Hackney-road.
" KING'S WHARF, New Wharf-road, Battle-bridge.
" No. 8 WHARF, PADDINGTON.
N.B. LATH, TILES, PAVING BRICKS, PLASTERERS' HAIR, ARTIFICIAL STONE, POTTERY WARE, &c. &c.

ROMAN and other CEMENTS.—Manufactured by J. M. BLASHFIELD, successor to the patentees, PARKER and WYATT, who, in 1796, first introduced PARKER'S ROMAN CEMENT, which has now for upwards of 55 years been extensively used in most of the public and private buildings and other works in this country and throughout the world. Among the more recent works in this country where it has been largely employed since the present proprietor became the manufacturer, may be named the Lyceum and St. James's Theatres, the Carlton, Reform and Army and Navy Club Houses, the London Docks, the Thames Tunnel, the Winter Palace, St. Petersburgh, the British Museum, the York Minster, the Royal Exchange, the Nelson Column, and the New Houses of Parliament. When properly applied, it is the most perfect and economical Cement for hydraulic works known; and, when used as a stucco, it will resist the action of heat and frost, and preserve walls from decay. As a mortar for brickwork, it surpasses any other material, and is NEARLY AS CHEAP FOR SUCH WORK AS MORTAR MADE OF ORDINARY LIME. Terms, an Hydraulic Lime, for setting in every where slow indurations is important, so as to allow for the settlement of work. A Cement of extraordinary tenacity and hydraulic properties, and with which the most ancient works in Lancashire have been erected. Hamelin's Patent Mastic, or Oil Cement, which may be painted immediately after use. Also Martin's Cement, Keene's Cement, Portland Cement, Genuine Plaster of Paris, prepared from the purest gypsum, and of any degree of fineness required. Chimney-pots, Trusses, Flue Tiles, &c.—Manufactory, Mill-wall, Poplar. Depôts Commercial-road, Lambeth, and Paddington Basin. Counting-house, 3, Iron London-street, Mark-lane, City.

CLASS II.—CHEMICAL AND PHARMACEUTICAL PRODUCTS.

DAMP WALLS.—NEW ELASTIC PAINT, an effectual remedy inside or out; will dry in a few hours, and may be immediately papered over if desired.

PATENT MINERAL ZINC PAINTS, invaluable for cheapness, beauty, and permanence. READY FOR USE; will stand any climate, and are well calculated for exportation. White, stone, and lead, 4s. 6d. gallon; stucco and blue, 5s. per gallon.

PATENT LIQUID CEMENT, READY FOR USE on the boards of houses, only one-eighth the cost of oil paint; for beauty permanence, giving the appearance of fine oil state. In casks of 1 cwt., 5cwt., and 3 cwt., at 8s., 13s., and 21s. each. Casks returnable.

G. BELL and Co., Steam Mills, 2, Wellington-street, Goswell-street, London.

STAINING DEAL to IMITATE ALL KINDS of WOODS. It requires no coating, and will stand the exposure to the weather. Price 6s. per gallon. Varnishes for W. Naylor's Stains may be had at the Factory, 2, James-street, Hatton-garden.

THE METALLIC PAINT, produced by the PATENT ALKALI COMPANY, has been extensively used for several years on farm buildings, iron bridges, roofs, and railings, shipping, &c., and it is universally acknowledged that it covers a greater surface than any other pigment, and stands far better on wood, iron, Abutbow Bins, and Roman cement, than the ordinary paints. Pine black, 20s. per ton; fresh purple brown, 8d. per lb.

Company's Offices, 1, New Broad-street, London.
JOHN A. WEST, Secretary.

PATENT WHITE ZINC, ANTIMONIAL, and other metallic PAINTS, greatly improved in the manufacture, may now be had in any quantity; also white-lead and painters' materials of every description.

Wholesale buyers and the trade supplied on liberal terms.
VATCHAN and SIMONDS, Southwark Steam Colour Works, Stone-end, Borough, London.

PURE WHITE ZINC PAINT.—Manufactured from the Vieille Montagne Company's white oxide of zinc; perfectly free from all poisonous qualities; is unaffected by sea water, sulphuretted hydrogen, or any of the gases, and preserves its original colour where white lead paint will not. Also Grey Zinc Paint, prepared for coppered bottom work.—Sold wholesale by JOHN WARNER and SONS, 8, Cripplegate, Jewin-street, London.

PURE PATENT WHITE ZINC PAINT, from the Vieille Montagne Zinc Mining Company.—The Company having become Proprietors of all rights and patents of the late Patent White Zinc Companies, in France and Belgium, is prepared to furnish, on a large scale, the WHITE OXIDE OF ZINC in a pure state, and of a quality which can only be manufactured with the zinc from the mines in Belgium. Patent White Zinc Paint is superior, in every respect, to white lead paint. It is entirely free from all poisonous influences and is unaffected by sea water, sulphuretted hydrogen, or any gases, besides it preserves its original colour, which White Lead Paint does not. White Zinc Paint expels some of these ravages, inasmuch as it does not, white lead, open the human frame; neither painters' colic nor paralysis, &c. &c., to which dangerous complaints the workmen who manufacture and use it, are subject, and to which persons who inhabit newly-painted apartments are also liable. A spurious article having been introduced in the market, under the name of White Zinc Paint, the public is cautioned against it, because, when adulterated, it becomes a very inferior paint, instead of a first-rate one.—For further particulars and prospectuses, apply to Mr. H. F. SCHROLL, General Agent for England and Scotland, at the Company's Offices, 12, Manchester Buildings, Westminster-bridge; and for supply of material and prices, at Messrs. CHAS. DEVAUX and CO., 84, King William street, City.

HUBRUCK'S PATENT WHITE ZINC PAINT.—This elegant white, the favourite pigment of the ancients, has been used by artists through successive generations and is still known to the members of the Royal Academy under the old name of Permanent White. Modern decorators could rarely afford this expensive article even for the delicate tracery of their most costly works.

Three years since the proprietors placed their manufacture on a large scale, and offered it at a price to compete with White lead paint.

The successful introduction of this paint, and its confessed superiority over every other paint hitherto known, brought forward various imitations.

These inferior products, as, frequently made from zinc ores, containing sulphur, lead, arsenic, and other deleterious material, affect injurious to health, dangerous to body, and reducing the preservative properties for which the original paint stands pre-eminent.

In justice to the proprietors these should not be confounded with the original, even though sold under the pretence that it is all the same.

HUBRUCK'S paint is entirely free from any injurious properties whatever. It is healthful in the manufacture, healthful in use, and healthful to occupants of rooms newly painted with it.

As a guard to the painter against the substitution of the inferior article, each cask is stamped

"HUBRUCK, LONDON PATENT,"

and if the cask has not been so marked, the reason is obvious.

A Circular with full particulars may be had of THOMAS HUBRUCK and SON, Colour Manufacturers, opposite the London Docks.

EVANS'S MINERAL OXIDE PAINTS.
Office, 8, Philpot-lane, London.

Green	20s. per Cwt.
Lead Colour	18s. "
Brown or Drab	20s. "
Black	20s. "
Dark Brown	20s. "
Yellow for Tarpaulings	18s. "

Packages of 1 Cwt. and upwards, are not charged.

These preparations of the Mineral Oxide Paints will be found more durable and at the same time more economical than any other paint.

They are proof against atmospheric action, gases, and salt water, of which the following testimonials are sufficient evidence.

"Gunwharf, 14, Hillsboro square, April, 1861.

"The result of the trial of your Mineral Oxide Paints on the Buoys manufactured by us for the service of the Hon. the Commissioners of the Trinity House, has been very satisfactory, both as it respects the quality and the durability of the Paints, and the economy of cost.

"You are at liberty to make use of this testimonial in their favour. "We are, Gentlemen, your obedient Servants,

(Signed) "BROWN, LENNOX, and Co."

"4, Wharf Canal-road, Kingsland-road, London, April 23, 1861.

"We have used your paint on the various gas works which we have constructed during the last seven years, and have no hesitation in stating it to be the best and most durable covering for iron.

"We shall continue to use and recommend it as heretofore.

"We are, Sir, yours obediently,

(Signed) "WESTWOOD and WRIGHTS."

No other testimonials can be had on application.

TO THE NOBILITY AND GENTRY FURNISHING.—Gutta Percha Looking Glass Picture, and Print Frames, Console-tables, Cornices, Brackets and Decorations are neat and most durable. They will not crack or chip, little equal to wood. Gutta Percha Establishment, 95, New Bond-street, Decorators by appointment to A. THORN and CO. Every article manufactured by the Gutta Percha Company, 18, Wharf-road, City-road, London.

NOISELESS RINGS.

GUTTA PERCHA CURTAIN and CORNICE RINGS.—These rings have been much approved by the faculty, particularly for nervous and aged patients. Owing to the peculiar properties of Gutta Percha, these rings do not make a noise when drawn along the pole or rod. The following sizes may be had, either with or without hoops:—45mm. 1 inch diameter, 18 inch do., 2 inch do., 24 inch do., 28 inch do.

TUBING, LINING for TANKS, ORNAMENTAL MOULDINGS &c. manufactured by the GUTTA PERCHA COMPANY (Patentees), 18, Wharf-road, City-road, London.

MOULDINGS by Machinery at Reduced Prices.

Large Ogee Architraves, 21 inches by 1 inch, 4s. 6d. per 100 feet	7s. 6d.	Do.
Do. Do. with rebated bead, Do.	7s. 6d.	Do.
Small Ogee Architraves, 6 inches by 1 inch, 3s. 6d.	5s.	Do.
Do. Do. with rebated bead, Do.	5s. 6d.	Do.
Ogee Door Moulding	3s. 6d.	Do.

A list of sections of the most useful and improved designs, with prices properly made to the above, will be forwarded on receipt of a penny stamp. Terms, cash.—Apply to THOMAS ARCHBUTT, Saw Mills, 29, Gloucester-street, Pimlico.

REDUCED PRICES.—EDWARD SIMMS, late William Cleave, of Willow-road, Pimlico, begs to acquaint Builders and the Trade that he has now on hand, at his Manufactory, the best of his hand river mahogany, a very large Assortment of Dry and Well-seasoned OAK and DEAL PREPARED FLOORING BOARDS and MATCH BOARDING, of all sorts, from 1 inch to 1½ inch thick, planed to a parallel width and thickness, and at quantity Reduced Prices. Also, Timber, Deals, Oak Planks, Scantlings, Rough Stile, Mouldings prepared by Machinery, Lathes, &c.—Apply at E. SIMMS's (late W. Cleave's) Flooring Manufactory, Willow-road, Pimlico Basin.

PREPARED FLOORING.—ALFRED HOSKING has to call the attention of Builders and Consumers generally to his STOCK of BOARDS, prepared in the best possible manner, and fit for present use; their superiority to the low-towards generally sold being sufficiently evinced by the greatly increased demand. A. HOSKING is in a position to offer every description of Timber and other deals imported into this country at the lowest possible price consistent with fair profits; and hops to submit the orders of those who have not yet favoured him, feel assured he can offer them advantages which they will appreciate.—Southwark-bridge Wharf, Bankside.

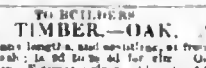
THOMAS ADAMS, MAHOGANY and TIMBER MERCHANT, Bermondsey New road, near the Brewhouse Arms, ten minutes' walk from the London-bridge Station.—T. A. continues to offer those who may favour him with their custom the following advantages, viz.—A selection from a large SEASONED STOCK of FLOORING and MATCHED BOARDING, always kept under cover the having very large drying sheds, at the LOWEST POSSIBLE PRICES, and he makes it his study to execute all orders with the greatest despatch and generally to the requirements of the parties to be quality and benefits, also he begs to state that the boards are measured after they are prepared. Would ask from a very large stock, BEST in immediate use, at reduced prices; a drawing of any patterns, with prices, forwarded on receipt of the postage stamps. A very extensive stock of Cut Deals of every description, kept under cover, at the same prices, and the sawing charged at reduced mill prices. Scantling cut to order as per load. In fact, all wood goods, either Foreign or British, and in every shape that can be required by builders, cabinet makers, wheelwrights &c. Every advantage offered to cash buyers. All goods except whole timber, delivered free within four miles. Great care taken to pack goods safely for the way.

N.B. English timber taken in exchange.

TIMBER, DEALS, and MAHOGANY.
Apply to SIMMS and CO.,
Sawyers and Importers,
3, OLD BROAD STREET, near the Royal Exchange.
N.B.—TIMBER MERCHANTS SUPPLIED IN EVERY PART OF THE COUNTRY.

TO BUILDERS.

ENGLISH TIMBER.—OAK, ASH, or ELM, cut to any length, and scantling, at from 3s. 6d. to 3s. per foot, 6d. per cub. ft.; 1s. 6d. to 3s. 6d. for elm. Oak, ash, elm from 24 per foot, run. Estimates given. Also about 25 cwt. 2 and 1½ square, and 3 by patch CAST STEEL.—Apply to Mr. MAY, 20, Lombard-street.



SAW MILLS, GILLINGHAM-STREET, PIMLICO.

TIMBER of any size, PLANK, DEALS, and BATTENS, &c., sawn on the most approved principle; Boards, &c., prepared, matched, and sized, by Mutrie's Patent Machinery. The Mills have all the advantages of navigation and railway carriage, for the transport of timber, by the Grosvenor Canal. Goods selected from the stocks, and carted home free of charge.

Address to HENRY SUTTHAM,
Saw Mills, Gillingham-street, Pimlico.
N.B. Estimates given for Sawing and Planing.

THE GENERAL WOOD-CUTTING COMPANY, TIMBER WHARF, SAWING, PLANING, AND MOULDING MILLS, Belvedere-road, Lambeth, near Waterloo-bridge, are prepared to supply timber and deals, &c., cut and sawed to any extent, at the current prices of the day. They keep a large stock of WELL-SEASONED FLOORING and MATCH BOARDS, which, being manufactured by themselves, they offer at the very reduced prices. Estimates on saw-mill will be found convenient to the purchasers of their timber, as it can be immediately cut and prepared to any purpose.

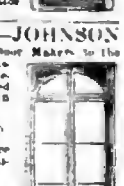
The Company beg leave to call the attention of the trade to their NEW MOULDING LIST, the latest ever published, and to state that, in addition to the numerous patterns therein delineated, they are ready to execute every description of mouldings from drawings, &c., with an accuracy and despatch which must insure satisfaction.

The mouldings list, containing nearly 80 designs, with prices attached, may be had at the company's mills, or shall be forwarded on receipt of eight postage stamps (the amount of the postage thereon).

The company (without previous preparation) manufactured and delivered to the Great Exhibition fifty statute miles of sash bars within ten days after receiving Messrs. Henderson and Co.'s order, which those gentlemen have verified, and that the work was executed to their entire satisfaction.

TIMBER PRESERVING COMPANY.— LONDON WORKS, and SAW MILLS, BURNAPS WHARF, ROTHERHITHE.—The Company is now ready with their works for the power skin of timber against dry rot, fire, &c., are prepared to undertake SAWING of every description on moderate terms. Their spacious wharf affords every facility for receiving timber or deals from the docks for contractors, builders, or others, to be converted and delivered as required.—For prices, &c., apply to the Manager at the Works, or to the secretary, 30, King William street, London-bridge.

CHAS. WM. WATERLOW,
MANUFACTURER
of Sashes and Frames, and Joiner to the Trade, 181, Bunhill-row, Finsbury-square.—Well-seasoned materials, superior workmanship, lowest prices.—Upwards of 40 patterns, and a large variety of Sash and Frames always on sale. Glazed goods securely packed for the country. Means struck Moulidings in any quantity.—N.B. This Establishment is worth the notice of all engaged in building.

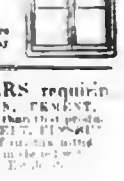


NOTICE OF REMOVAL.—JOHNSON and PARE, Sash, Shop Front, and Door Makers to the trade, beg to inform their Customers and the Public generally, that they have removed to more extensive premises in

BAKER-STREET,
BAGNIGGE WELLS-ROAD

where they have convenience for carrying on a larger business.

N.B. On receipt of a postage stamp, a full list of prices may be had by return of post.



ARCHITECTS or BUILDERS requiring PERFORMANCES of COMPOSITION CEMENT, PLASTER, &c., will have better executed work than that provided by W. SMART, [illegible] CROWN-STREET, FINSBURY, which is supplied [illegible] estimates for work of the [illegible] [illegible] Architects [illegible] [illegible] [illegible] [illegible] [illegible]
